

Ring

SKU: AK2YJYT-NZY3-M02

2-motor desks

Ring

Ergonomic

The "Ring" is a height adjustable desk that can adapt to the preferred working height of the user, providing a comfortable ergonomic experience whether sitting or standing. The premium handset allows for a change of height from 625 - 1275 mm, with the desk remaining stable at any chosen height.

Round columns

This desk distinguishes itself with unique round columns while maintaining the same stability as other comparable models. Additionally, the presence of round columns contributes to a more refined appearance for both the desk and the surrounding environment, particularly when in large numbers.

Capacity and safety

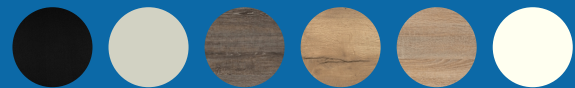

Whether it is papers or a complete work-setup, the "Ring" is able to carry work essentials with a lifting capacity of up to 120 kg. This due to the dual-motor setup that is in direct connection with the built-in anti-collision sensor, ensuring a smooth height adjustment without tilting.
